Professional Summary

Dynamic and results-driven Full Stack Developer with over 2 years of hands-on experience in building and deploying robust web applications using the MERN stack (MongoDB, Express, React, Node.js). Demonstrates proficiency in designing and implementing both front-end and back-end solutions, with a strong focus on scalability, performance, and user experience. Highly skilled in collaborating with cross-functional teams to create innovative and effective software solutions. Ready to make a significant impact on any development team.

Technical Skills

- Frontend: HTML, CSS, JavaScript, React, Bootstrap 5, Tailwind CSS, Figma (UI/UX design)
- Backend: Node.js, Express, RESTful APIs, C#
- Database: MongoDB, MySQL, SQL
- Frameworks: .NET Framework
- Additional Skills: Python, C++, Adobe Photoshop, MS Office

Projects

- E-Commerce Platform (MERN Stack): Developed a fully functional e-commerce application with an integrated shopping cart, user authentication, and secure payment gateways, providing an efficient and seamless user experience.

- Portfolio Website (React, Node.js, MongoDB): Created a personal portfolio site showcasing skills, projects, and blog posts. Implemented a custom content management system (CMS) for easy updates and blog creation.

Education

- HSSC (Computer Science) - Atta Shad Degree College Turbat
- Matric (Science) - Govt High School Khairabad

Languages

- English (Fluent), Urdu (Native), Balochi (Fluent)

Key Strengths

- Strong problem-solving abilities and analytical skills
- Adept at optimizing web performance and enhancing UX/UI
- Proven ability to work independently and within collaborative environments
- Passion for staying updated with the latest web development trends and tools

Professional Objective

To leverage my expertise in the MERN stack and full-stack development skills in a challenging role where I can contribute to building scalable applications, drive business growth, and expand my technical capabilities in a leading tech company.
